Standing Committee on Highways
TC3 Update

Thursday September 24, 2015
AASHTO Annual Meeting – Chicago, Illinois
Tom Byron, TC3 Chair
Mark Chaput, Vice Chair
TC3 – A Training Resource
Cost Savings through Resource Sharing

Our Mission:
Develop Training to Enhance the Skills of Transportation Workforce

- Broad Curriculum of 100 + Courses
- Leverage Collective Resources
- National Subject Matter Network
- Cost Effective Course Development
- Ensure Training Accessibility
Recent Accomplishments

Last Six months

• Updated 80% of Existing Curriculum
• Developed and Released AAHSTO Based LMS
• Developed and Released New Website
• 20 New Course Hours Under Development
• Increased Mobile App Usage
• Accelerating LMS and Curriculum Marketing Efforts

A NATIONAL RESOURCE
A VALUABLE PARTNER

PUT TRAINING RESOURCES AT YOUR FINGER TIPS

COST SAVINGS
TC3 allows States to cost-effectively train staff with quality and relevant course material, saving them from the increasing training costs that continuously challenge DOT managers.

INNOVATION
Courses provided by TC3 are developed through a collaboration of national best practices and a network of knowledgeable subject matter experts, ensuring the curriculum.

SKILLED WORKFORCE
TC3 is dedicated to help protect against the loss of knowledge and prepare the workforce for advancements in technologies through quality training. More than 100,000 individuals
2016 Work Plan

This year’s Focus

• Update the Remaining 20% of the Curriculum
• Coordinate Sun Setting of Courses on NHI Training Platform
• New course development ($300,000 - $400,000)
• Expand Industry Partnerships
• Promote Curriculum to the Private Sector
• TSP Long Range Planning Session

TC3 Benefits

Why support the TC3?

The TC3’s mission is to develop, maintain, and provide effective access for a quality training curriculum to enhance the competency of the nation’s transportation technical workforce, with the focus on construction, maintenance, and materials.

COST SAVINGS
TC3 allows states to cost-effectively train staff with quality and relevant course material, saving them from the increasing training costs that continuously challenge DOT managers.

- Through collective state contributions, TC3 annually develops up to 25 hours of web-based training (EBT), a level that could cost up to $500,000 per state developed by individual states.

- Additional savings could exceed $160 per person/per training event as states avoid the cost of classroom-based courses and associated travel.

INNOVATION
TC3 courses are created using a rapid course development process through a collaboration of national best practices and content matter experts.

- TC3 works hand in hand with existing industry challenges, TC3 provides an evolving, top-level curriculum to meet the challenges of today and tomorrow.

- TC3’s AASHTO-based learning management system offers improved functionality to better serve our customers.

SKILLED WORKFORCE
As the current workforce retires, TC3 is dedicated to help protect against the loss of knowledge for the new workforce through quality training.

- More than 300,000 individuals have been trained through TC3 courses over the past 7 years.

- 100% of AASHTO member states already engage in TC3 training to develop the skills of their construction, maintenance, and materials workforce.

TC3 is an AASHTO technical service program focused on the web-based training of front-line workers. With increased support and resources to operate programs, TC3 looks forward to continuously improving our offerings to alleviate challenged DOT training budgets and maximize outcomes from construction, maintenance, and materials resources.

Volunteer Orientation Package

As a TC3 volunteer, you will act as a “TC3 Champion” for your state or organization. Champion responsibilities include:

- Raise awareness and encourage the use of TC3 resources.
- Support the TC3 mission with counterparts within your state or organization.
- Communicate important TC3 updates within your state or organization.
- Recruit subject matter experts to assist with course development.
- Promote the TC3 curriculum as a valuable training resource to industry partners within your state, such as local agencies, consultants, and contractors.
