What the Future Holds

What is UDOT Open Data?

The Utah Department of Transportation (UDOT) is excited to present UDOT Open Data. UDOT Open Data is a central clearinghouse of all public UDOT data. The purpose of this site is to provide easy, transparent access to UDOT data to the citizens of Utah. This site is in Beta development as we work to tailor this site to the needs of the data users of Utah. We thank you for your patience and welcome your feedback as we work on this site.
