A motion is made to extend the life of the AASHTO Task Force on Context Sensitive Solutions (CSS) for an additional half-year, until the 2007 AASHTO Spring Meeting, to continue the leadership effort in advancing CSS principles and practices nationally, including the following tasks:

- Complete a summary report from the recent and highly successful joint AASHTO/FHWA CSS Peer Exchange, held in Baltimore, MD, September 6-8, 2006;
- Compile results from the follow-on, facilitated Action Plan meeting held on Thursday, October 26, in Portland, OR;
- Finalize a modified version of the official CSS definition and principles based on input received at the two meetings just mentioned;
- Develop of a list of strategic goals and activities for mainstreaming CSS in all transportation agencies; and
- Develop a recommendation for the placement of CSS within the AASHTO organizational structure.
