Standing Committee on Highways Proposed Policy Resolution (PPR-AM08)
Subcommittee on Design
Title: Consistent Use of Dual Units in AASHTO Publications

WHEREAS, AASHTO prepares and disseminates guidance manuals and other publications to design professionals worldwide; and

WHEREAS, These design professional use both the metric and English (US Customary) units of measurement; and

WHEREAS, It is important that AASHTO publications be consistent in their representation of units and measurements; and

WHEREAS, The Subcommittee on Design recognizes the need to provide guidance that meets the needs of all publication users; now therefore be it

RESOLVED, That the Standing Committee on Highways maintain and support the policy requiring the consistent use of dual units in every AASHTO publication in all future revisions.
